

PERGOLA RETRATTILE MOTORIZZATA CON LED

GA802180-DGRE (3x4m)
GA802180-BIAN (3x4m)

GA802179-DGRE (3x3m)
GA802179-BIAN (3x3m)

Questa pergola bioclimatica in alluminio con sistema retrattile integrato, consente di regolare la copertura, offrendo protezione variabile contro sole o pioggia leggera. La sua funzionalità e la sua linea minimale la rendono particolarmente adatta per terrazze, giardini o spazi outdoor dove si cerca un equilibrio tra praticità e stile. Il sistema integrato di illuminazione a LED contribuisce a rendere lo spazio esterno confortevole e piacevole in ogni momento. Scelta indicata per chi desidera un complemento distinto e funzionale per il proprio spazio esterno.

BIOCLIMATIC PERGOLA WITH RETRACTABLE SYSTEM

GA802180-DGRE (3x4m)
GA802180-BIAN (3x4m)

GA802179-DGRE (3x3m)
GA802179-BIAN (3x3m)

This bioclimatic aluminum pergola with an integrated retractable system allows you to adjust the cover, providing variable protection against sunlight or light rain. Its functionality and minimalist design make it particularly suitable for terraces, gardens or outdoor spaces where a balance between practicality and style is desired. The integrated LED lighting system makes the outdoor space comfortable, appealing and enjoyable at all times. An ideal choice for those seeking a distinctive and functional addition to their outdoor area.
